

REMARKS

Applicant respectfully requests that the foregoing amendments be made prior to examination of the present application.

Claims 4, 12, and 17 were previously requested to be cancelled. Claims 1-3, 5-11, 13-16 and 18-23 remain pending. Claims 1, 8 and 10, 11, and 14 are currently amended.

The amendment to independent claims 1, 8, 11 and 14 address the Examiner's comment in the Advisory Action that "As claimed, the limitation merely states that non-picture content is not converted into second contents (or in this case, converted view content). It does not state the non-picture contents are not converted at all." Claims 1, 8, 11 and 14 now explicitly recite a feature that the Examiner had asserted was not recited in those claims, whereby that feature is not disclosed, taught or suggested by the cited art of record.

Further, dependent claim 10 has been amended to recite that, when the terminal is a small terminal, the gateway server converts the required contents into first specific contents, and that when the terminal is not a small terminal, the gateway server converts the required contents into second specific contents different from the first specific contents. These features are also not disclosed, taught or suggested by the cited art of record.

Applicant believes that the present application is now in condition for allowance. Favorable consideration of the application as amended is respectfully requested.

The Examiner is invited to contact the undersigned by telephone if it is felt that a telephone interview would advance the prosecution of the present application.

Respectfully submitted,

Date December 29, 2004
